

# Certified Agile Project Management

## Cost:

**In-person:** SGD\$2,500

**LiveOnline:** SGD\$2,000

## Duration:

**In-person:** 2 x 2-day courses

**LiveOnline:** 2 x 3 sessions of 4.5 hours

## Certification:

The ICP and ICP-APM certifications from ICAgile are granted on the successful completion of these courses.

Project Management Institute (PMI)® accredited courses: These courses are accredited with PMI® and will contribute 28 professional development units (PDUs) towards your chosen certification (22 technical hours and 6 Leadership hours).

## Intended for:

- Project managers responsible for software development projects
- Managers and executives responsible for software delivery
- Iteration managers and scrum masters working on agile delivery.

## Bundle Details:

Book the Agile Fundamentals course, and the Agile Project Management course at the same time and receive a special “Certified Agile Project Management” bundle price. Use the promotion code “CPM” at the time of booking to receive the bundle price.

Agile organisations put a strong emphasis on self-organising teams, so it is essential for one or more people on the team to have the leadership skills needed to help the team work more cohesively, communicate more effectively, and support and guide them through coordination and facilitation. This is especially true in more complex environments where there is a need for coordination across programs with multiple streams of work. Our ICAgile accredited Agile Fundamentals and Agile Project Management bundle is a fast start to Agile Project Management that will prepare you to contribute as a team member on an Agile project and to provide the leadership needed to span teams and contribute at a leadership level.

## Learning Objectives:

### Agile Fundamentals

- The background of participating in an Agile workplace
- The roles and responsibilities of a typical agile team
- The various tools available to agile teams to facilitate conversation about priorities
- How agile teams cooperate and collaborate to deliver business value
- The important interpersonal skills agile environments encourage and foster
- How discipline and standards contribute to agility

### Agile Project Management

- The background of participating in an Agile workplace
- The roles and responsibilities of a typical agile team
- The various tools available to agile teams to facilitate conversation about priorities
- How agile teams cooperate and collaborate to deliver business value

- Complex adaptive systems and adaptive planning
- Delivery management
- Agile project flow
- Defining value
- Governance
- Risk assessment and mitigation
- Performance metrics

## **Prerequisites:**

To get the most out of these courses, you will need to have a good understanding of project management. The first course you should attend in this bundle, should be the Agile Fundamentals course, followed by the Agile Project Management course.

## **Method used:**

Lecturing is kept to the minimum necessary, most of the learning is achieved by applying the practices and techniques in group exercises.

## **Delivery:**

This bundle is offered as two, two-day classroom-based courses as well as a LiveOnline option. Our LiveOnline delivery is 3 sessions per course over two courses (each four hours and 45 minutes in duration). The instructor is live and interaction and learning objectives are the same as our in-person classes with the added benefit of being able to take this course from your home, your office, or your home office. We use [Zoom](#) for our LiveOnline classes. Zoom is an easy to use and reliable cloud platform and we have in place robust security settings to ensure our users and their privacy are protected. For more information, please check out our [FAQ page](#).

For people with hearing loss, we can provide closed captions and, in some cases, full transcripts for our LiveOnline courses. In addition to captioning, we can also provide early access for learners with hearing loss to read through the course materials and test the tools and technologies.
